

Application

The 8600 Series Senior™ spiral gauges are designed for use in measuring liquid levels in hydraulic, lubricating or fuel-oil storage tanks, and gasoline and diesel fuel levels in stationary, standby and mobile generators. The 8600 Series is not recommended for off-road equipment.

General Information & Features

The 8640 spiral gauge incorporates a strong Alnico magnet capable of driving a TwinSite™ sender which provides a direct, fractional reading and also sends an electrical signal to a remote receiver.

The 8260 spiral gauge is supplied with an easy to read side-view fractional dial. The model 8680 spiral gauge is equipped with a standard top reading fractional dial. All 8600 Series spiral gauges have a 1 1/2" MNPT tank connection, and are suitable for tank pressures up to 25 PSIG maximum. They are designed for top mounting only in tanks up to 36" deep and some models are UL listed for flammable liquids.

Model #	Sender or Dial Type
8640	Senior, TwinSite™ sender in choice of 0-30, 0-90, 240-30 Ohm ranges. Specify your preference when ordering.
8660	#5025S00570 Senior™ side-reading fractional dial
8680	#5844S01793 Senior™ direct-reading fractional dial

See reverse side for dimensional data, materials of construction, performance, and advice on how to order.

Magnetic Liquid-Level Gauges

Senior Twinsite™ Sender (Specify Ohm range)

Senior Side-View Dial

Senior Dial

Standard Construction

General Specifications*

Mounting

Designed for top mounting only.

Repeatability

Repeatability depends on proper gauge sizing & tank configuration. Normally, standard dials are $\pm 7\%$; side-reading dials are $\pm 8\%$; & TwinSite™ senders are $\pm 12\%$. Vibration improves repeatability.

Temperature

Standard operating range is -40°F to 158°F , -40 to 70C .

Humidity

Exposed portion should be painted for marine applications.

Shock

Shorter sizes are suitable for some mobile, off-road application.

Vibration

Shorter sizes are suitable for some mobile, off-road application.

Power

0.5 watts maximum for TwinSite™ versions.

Tank Pressure

0 to 25 PSIG [0 - 1,7 Bar].

Approval

Direct indicating gauge. Available UL listed for flammable liquids. Some models UL recognized for marine service.

Materials of Construction*

Head

Die-cast zinc.

Guide Rod

Zinc-plated steel; brass optional at extra cost.

Centershaft

Brass.

Tie Plate, Guide & Bearing Pin

Stainless steel.

Float

Nitrile rubber

Drive Magnet

Alnico

Standard Dial

Polycarbonate, hermetically sealed.

Side-View Dial

Aluminum with polycarbonate crystal, hermetically sealed.

TwinSite™ Sender

Polyamide.

When ordering, specify

1. Gauge model number
2. Tank height.
3. Ohm range on TwinSite™ versions.
4. Riser height, if any.
5. Any special requirements.
